* Purchase of textbooks and e-books is the responsibility of the student. Estimates of book costs have been provided but may be subject to change by vendors.

No fees associated with participation in distance education.

No tool fees.

TENET EMPLOYEE AND ALUMNI DISCOUNT

Baptist Health System School of Health Professions provides a wide variety of programs at a discount to Tenet employees and School of Health Professions alumni who want to take advantage of educational opportunities available at the school to advance their health care careers at a discounted tuition rate. Not all programs have discounts available. Eligibility for admission and application deadlines vary based on the academic program and can be found at www.bshp.edu. For more information on the tuition discount program, please contact the school's Admissions Department at 210-297-9636.

PAYMENT

Cash, check, money order, credit card (a credit card convenience fee may be charged), and financial aid. Tuition and fees for each semester will be paid in full on or before the first day of each semester unless the student is eligible for financial aid and the Financial Aid Advisor has given clearance and/or other financial arrangements have been made with the Finance Office. Students are responsible for any financial obligation incurred while attending Baptist Health System School of Health Professions regardless of any anticipated financial aid.

Optional Payment Plan – Students may elect to pay their full or remaining balance of tuition and fees for each semester in three (3) equal payments as follows.

- First payment due first day of the semester
- Second payment due two (2) weeks after the first day of the semester
- Third payment due four (4) weeks after the first day of the semester

Each payment should be 1/3 of the amount due for tuition and fees after deducting financial aid, if any. For example, if a student's charges are \$5,000 and \$2,000 is awarded for financial aid, each required payment would be \$1,000. The calculation is:

$$\$5,000 - \$2,000 = \$3,000 / 3 = \$1,000.$$

A \$150 per semester Payment Plan Fee (included in the table above for Fees amount) applies to any semester in which the student has not paid the full tuition and fees for that semester on or before the first day of the semester.

No interest is charged.

ADDITIONAL EXPENSES – ALL STUDENTS

The following expenses are the responsibility of the student and are not covered in the tuition and fees schedule: the cost of books, e-books, uniforms, transportation, clinical site expenses (such as parking and CastleBranch documentation services), immunizations, health insurance, CPR certification, credit card convenience fees, library fines, and parking violation fines. The student is also responsible for optional graduation expenses, such as a graduation cap and gown and nursing pin. The purchase of nursing pins applies only to nursing students who wish to participate in the traditional pinning ceremony at the time of graduation.

The fee for auditing a course (upon program director's approval) is \$50.

Program-specific uniform patches are \$5 each.

The charge to replace the student ID badge is \$20.

School parking permits are \$20 per vehicle registered to park on campus. The charge to replace a lost or destroyed school parking permit is \$20. Hospital and other clinical affiliates set their own fee amounts.

The application fee for the first-time applicant is \$15. Students, former students, or graduates applying for a new program thereafter will incur an application fee of \$10 for each application.

LICENSING BOARD REGISTRY EXAMINATION AND CERTIFICATION FEES

Costs associated with examination and licensure are determined by the individual licensing or examination boards and may be subject to change. These costs may or may not be included in the student's program tuition and fees depending on licensure/registry procedures. The cost of any assessment testing retakes is the responsibility of the student.

COLLECTION PRACTICE FOR OUTSTANDING BALANCES

The School of Health Professions makes every effort to communicate with students on a weekly basis regarding any balance owed during a semester. The school provides payment plans for any student who needs such and works with all current students to assist them to stay in school and graduate on time. If you withdraw from your program and your balance is not paid in full within 180 days, your balance will be submitted for collection.

Information on these pages supersedes all other information published by any other agency or bulletin. Information is subject to change without notice.

The information contained in this catalog addendum is true and correct to the best of my knowledge.
